STAT

Director
National Air and Space Museum
Smithsonian Institution
Washington, D. C. 20560

Dear [REDACTED]

STAT

I have asked the Department of Defense to look into the possibility of releasing a camera to the National Air and Space Museum for your new exhibit, "Looking at Earth." As you know, the security implications of declassifying such equipment must be carefully weighed. Rest assured that your request will receive every consideration. I will be back in touch after a decision has been made.

Sincerely,

/s/ William J. Casey
